Capability Statement

Company Summary – VITANYA BRAIN PERFORMANCE provides proven protocols to improve brain performance and optimize body functions through the use of proprietary software and advanced technologies.

Services Offered – **Improve Brain Performance and Optimize Body Functions**

- Assist with concentration and focus
- Decrease stress, anxiety, and depression
- Overcome PTSD
- Improve physical, mental or emotional concerns
- Resolve ADD/ADHD issues
- Advance Social and Educational abilities for those with Autism
- Improve overall individual well-being in every aspect of your life

Past Performance

- **732 clients served in the El Paso center from May 2017 to October 2023**
- Clients assisted range from 4-year-old children to 90-year-old adults
- Individuals come from diverse backgrounds and socio-economic status
- Assisted Police Officers, First Responders, Active Military, Veterans and their family members
- Professional athletes, Students, Front-line workers, and Leaders

Differentiators

- Proprietary software
- Electrical signals produced by the brain can now be read through galvanic skin response
- We can now schedule our technology to ask the brain specific questions (bio-communications)
- The brain determines your normal range then evaluates electrical signals the brain is sending, reports signals outside normal range, finds the solution, and brings them back within normal range
